

## **1-Call Alaska, LLC. Alternative Planning Criteria Tank Vessel Coverage Agreement**

The APC Agreement for Provision of Response Resources between 1-Call Alaska, LLC. (Provider) and \_\_\_\_\_ (Client), dated \_\_\_\_\_

1. In accordance with the provisions and definitions set forth in the US Coast Guard (USCG) Pollution Prevention regulations in 33 CFR 155, Subpart D (Tank Vessel Response Plans for Oil), the Provider shall maintain a USCG approved Alternative Planning Criteria (APC) known as “1-Call Alaska Tank Vessel APC”, within the portion of the USCG Captain of the Port (COTP) zone, Western Alaska, defined as 1-Call Alaska LLC’s Operations Area, see appendix D. In addition to an agreement with 1-Call Alaska LLC, vessels entering the Cook Inlet Zone, must also enroll with Cook Inlet Spill Prevention and Response Incorporated (CISPRI) (see appendix D).
2. The Provider shall make available to the Client its APC certification approval letter for the Client’s and/or the Client’s plan preparers use in obtaining USCG Tank Vessel Response Plan (TVRP) approval for 1-Call Alaska LLC’s response area.
3. The Client, on behalf of its vessels covered by this Agreement (Covered Vessels), shall permit the tracking of its covered vessels when operating in the 1-Call Alaska response area.
4. The Client shall notify the APC Provider if/when there is an incident in accordance with the Providers approved Alternative Planning Criteria Plan and related appendices.
5. The Client certifies that they have reviewed and are familiar with the Appendix 10.1 “Masters Guide for Tank Vessels Operating under the 1-Call Alaska APC while in COTP W Alaska Waters” and acknowledges compliance with the operating procedures within. The Client also acknowledges that the Vessel Captains of Covered Vessels have reviewed and are familiar with the Appendix 10.1 “Masters Guide for Tank Vessels Operating under the 1-Call Alaska APC while in COTP W Alaska Water”.
6. In the event of a spill or threat of spill, 1-Call Alaska LLC may, at the Client’s request, provide the initial Incident Commander (IC) on behalf of the Covered Vessel and spill management team, until a formal transition occurs from the Provider to the Client’s designated Qualified Individual (QI). The IC will initiate response activities and direct reasonable response resources in the initial phase of the response to the spill or threat of a spill. The IC will liaise so far as practicable with the Client and the QI regarding the response and resource direction. The Client authorizes and directs its QI to coordinate with the IC as soon as possible upon a report of a spill or threatened oil spill from the Covered Vessel.

7. Enrollment of Clients' tank vessels in the 1-Call Alaska LLC Tank Vessel APC shall occur upon the completion and submission of this agreement including Appendix A, B and C of this agreement and issuance of an executed 1-Call Alaska LLC Coverage Certificate.
  
8. The client agrees to the 1-Call Alaska LLC. standard terms and conditions For Tank Vessels which are incorporated by reference and can be found on the 1-Call Alaska website at <https://www.1callalaska.com>.

### 1-CALL ALASKA Operations Area

The 1-Call Alaska operations area is divided into three sub-areas, Southwest Alaskan Zone (orange), Cook Inlet Zone (dark blue) and Prince William Sound Offshore Transit Zone (turquoise). 1-Call Alaska will provide oil spill response APC coverage to tank vessels operating in any of the three zones pictured below. If the vessel is operating in the orange zone only, and not entering into the blue or turquoise zones, then only 1-Call Alaska Tank Vessel APC Coverage is required. If your vessel enters CISPRI (blue) zone, then both 1-Call Alaska Tank Vessel APC Coverage and CISPRI coverage are required. CISPRI coverage must be arranged through CISPRI directly. Entrance into the internal waters of Prince William Sound requires membership with SERVs. Way points for the operational area is found on the 1-Call Alaska Website.
